From time to time, without the consent of holders of the global bonds, and subject to the required approvals under Panamanian law, Panama may create and issue additional debt securities with the same terms and conditions as those of the global bonds (or the same except for the amount of the first interest payment and the issue price), provided that such additional debt securities do not have, for purposes of U.S. federal income taxation (regardless of whether any holders of such debt securities are subject to the U.S. federal tax laws), a greater amount of original issue discount than the global bonds have as of the date of issuance of such additional debt securities. Panama may also consolidate the additional debt securities to form a single series with the outstanding global bonds.

RECENT DEVELOPMENTS

The information included in this section supplements the information about Panama contained in Panama's annual report for the year ended December 31, 2002 on Form 18-K filed with the Commission on September 30, 2003. To the extent the information in this section is inconsistent with the information contained in such amended annual report, the information in this section replaces such information. Initially capitalized terms used in this section have the respective meaning assigned to those terms in such amended annual report. Panama's annual report for 2003 will be available as of September 2004.

The Economy

Panama's economy continues to show signs of recovery since 2002. Panama's gross domestic product ("GDP") registered a real increase of 4.2% in the third quarter of 2003 from year-end 2002. Inflation, as measured by the consumer price index ("CPI"), was 1.3% in the third quarter of 2003.

In the third quarter of 2003, the primary sector grew 10.0% compared to the same period of 2002. In particular, the fisheries industry grew by 17.8% in the third quarter of 2003 compared to the same period in 2002 primarily due to an increase in shrimp exports. The construction industry grew by 30.1% in the third quarter of 2003 compared to the same period of 2002 due to the construction of commercial malls and, as a result of lower mortgage rates, an increase in housing construction. The transportation and telecommunications sector grew by 4.5% in the third quarter of 2003 compared to the same period of 2002, with particular growth in port activities, which grew by 16.8% in the third quarter partly as a result of the increased movement of containers. Commercial activities grew by 5.6% in the third quarter of 2003 compared to the same period of 2002, primarily attributable to increased imports and increased consumer spending as a result of an income tax exemption for lower income persons. The tourism sector exhibited an increase of 4.2% in the third quarter from the same period in 2002 due to, among other things, the substantial increase in incoming tourists from cruise ships. The Colón Free Trade Zone (or the "CFZ") reversed a declining trend by growing 5.2% in the third quarter of this year compared to the same period of the previous year. This increase is primarily attributable to a rise in exports resulting from a decrease in international prices of goods. The financial intermediation sector, however, suffered a decline of 2.9% in the third quarter of 2003 compared to the same period in 2002. This decrease is attributable to a reduction in banking services.

Panama's current account registered a deficit of \$277.9 million for the third quarter of 2003 compared to a surplus of \$117.1 million for the same period of 2002. Panama's net exports of goods and services increased by 7.8% for the third quarter of 2003 compared to the same period of 2002.

Under the 2003 budget, the total financial needs for the year were approximately \$600 million, which included approximately \$486 million for public debt service and the targeted fiscal deficit of 2% of GDP for 2003. In the first three quarters of 2003, Panama's non-financial public sector balance registered a deficit of approximately \$638 million, or 5.0% of GDP.

The National Assembly approved the 2004 budget on November 17, 2003. The 2004 budget contemplates total expenditures of \$6.003 billion, with budget estimates based on an anticipated 3.0% growth in real GDP and an anticipated consolidated public sector deficit of approximately \$250 million (or approximately 2.0% of real GDP) for 2004.

As of December 31, 2002, the exclusive landline telephone service concessions granted to C&W Panama, in which the Government retains a 49% interest, expired, leaving the local and long distance telecommunications market open to competition from other providers. As of December 2003, over 50 companies had entered the telecommunications market.

In September 2003, the board of directors of *Caja de Seguro Social* ("CSS"), Panama's social security system, removed the managing director of CSS due to poor management of the social security fund and appointed an interim managing director. CSS was running a deficit equivalent to approximately \$46.9 million or 0.4% of GDP as of September 30, 2003. Despite the administration change, President Moscoso clarified in September 2003 that she would not privatize CSS.

As of December 31, 2002, Panama's external debt was equal to \$6.349 billion, up from \$6.263 billion as of December 31, 2001. This balance includes \$151 million of pre-funding for 2003 obtained as part of the December 2002 issuance of \$430 million of 9.375% Global Bonds due 2023. The ratio of external debt to current GDP as of

December 31, 2002 was 56.1%. As of June 30, 2003, Panama's external debt was equal to \$6.478 billion; Panama's total public sector debt as of the same date was \$7.041 billion.

In an effort to promote the development of Panama's capital markets, the Government initiated in July 2002, a program of Treasury Note issuances in the local market. In seven monthly auctions ending on February 4, 2003, Panama issued \$250 million of 7.25% Treasury Notes due 2005; in ten monthly auctions from March 11, 2003 to December 2, 2003, Panama issued almost \$250 million of 6.75% Treasury Notes due 2007. The Government completed its 2003 financing following the June 2003 auction, and proceeds from subsequent auctions in 2003 were used for debt management operations. On January 13, 2004, the Government issued \$10.0 million of 5.25% Treasury Notes due 2009.

In the first nine months of 2003, Panama repurchased \$123.5 million principal amount of its Brady Bonds. On January 21, 2004, the Republic launched an offer to purchase for cash certain of its outstanding Brady Bonds, which offer is subject to certain conditions, including financing by a further issuance, in an aggregate principal amount not exceeding \$350 million, of its 9.375% Global Bonds due 2023.

International Trade

In early 2002, Panama signed an agreement in principle (the "Free Trade Agreement") with Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua to work towards a Central American free trade zone by 2005. The National Assembly approved the Free Trade Agreement in February 2003. Pursuant to the Free Trade Agreement, Panama and El Salvador signed a bilateral protocol, also approved by the National Assembly in February 2003, which covers about 85% of both countries' output. In February 2003, Panama and the Dominican Republic signed an agreement that added an extensive list of products to the bilateral trade agreement between those countries. Panama is currently negotiating similar bilateral protocols with each of Guatemala, Honduras, Costa Rica and Nicaragua. On August 21, 2003, Panama signed a free trade agreement with Taiwan. The agreement, which took effect on January 1, 2004, was ratified by Taiwan's legislature on October 1, 2003 and by Panama's National Assembly on October 13, 2003. Under the agreement, 95% of import tariffs will be phased out over 10 years. On November 18, 2003, the United States Trade Representative notified the United States Congress of its intent to initiate free trade negotiations with the Republic of Panama. Negotiations are scheduled to begin in the second quarter of 2004.

IMF Relationship

The International Monetary Fund ("IMF") and Government representatives met in April 2002 following the expiration of Panama's most recent stand-by agreement in March 2002. During 2002, the Government maintained ongoing conceptual discussions with the IMF about a possible new standby facility, but no such facility was arranged. The IMF concluded its most recent Article IV review of Panama in July 2002, and initiated another such review in mid-November 2003.

The Panama Canal

The Panama Canal Authority announced that total revenues for the fiscal year ending September 30, 2003 was \$921 million, an increase of 15% over fiscal 2002 revenues of \$799.8. The increase is in part attributable to increased tolls.

Toll revenues for fiscal year 2003 reached \$666.0 million, an increase of 13.1% over fiscal year 2002. Toll revenues for fiscal year 2002 were \$588.8 million, an increase of 1.6% over fiscal year 2001. In July 2002, the Panama Canal Authority announced changes to its tolls structure. The first phase of such changes (implemented in October 2002) raised tolls by an average of 8% and the second phase (implemented in July 2003) raised tolls by an average of 4.5%, with actual toll fees based on vessel type and tonnage, and a fee for locomotive usage based on the number of locomotive cables required. Currently, there is no toll increase programmed for fiscal years 2004 and 2005; however, tariffs for transit related services such as reservations, towing and line handling have recently been revised.

The Panama Canal Authority allocated \$126.1 million and \$206.5 million in capital investments for fiscal years 2002 and 2003, respectively. The Canal investment plan for fiscal years 2004 through 2006 provides investments of more than \$497 million, and includes projects such as deepening and widening of the Gaillard Cut, the Gatun Lake and the Pacific and Atlantic entrances of the Canal; acquisition of tugboats and towing locomotives; rehabilitation of railways for towing locomotives; and increase in the capacity of the potable water system.

DESCRIPTION OF THE GLOBAL BONDS

Panama will issue the global bonds under the fiscal agency agreement, dated as of September 26, 1997, as amended as of September 4, 2003, between Panama and JPMorgan Chase Bank, as fiscal agent. Panama has appointed a registrar, paying agent and transfer agent in accordance with the fiscal agency agreement.

The following description is a summary of the material provisions of the global bonds and the fiscal agency agreement. Because it is only a summary, the description may not contain all of the information that is important to you as a potential investor in the global bonds. Therefore, Panama urges you to read the fiscal agency agreement and the form of global bond in making your decision on whether to invest in the global bonds. Panama has filed a copy of these documents with the Commission, and copies of these documents are available at the office of the fiscal agent in New York City and at the office of the paying agent in Luxembourg.

The following description of the particular terms of the global bonds offered hereby supplements and replaces any inconsistent information set forth in the description of the general terms and provisions of the debt securities set forth in the prospectus.

General Terms of the Global Bonds

The global bonds:

- will be issued in an aggregate principal amount of \$250,000,000.
- will mature at par, including any accrued and unpaid interest, on April 28, 2034.
- will not be redeemable prior to maturity and are not entitled to the benefit of any sinking fund.
- will bear interest at 8.125% per annum accruing from January 28, 2004, calculated on the basis of a 360-day year, consisting of twelve 30-day months.
- will pay interest semi-annually in arrears in equal installments on April 28 and October 28 of each year, beginning April 28, 2004, to be paid to the person in whose name the global bond is registered at the close of business on the preceding April 13 for April 28 interest payments or October 13 for October 28 interest payments.
- upon issuance, will be direct, unconditional and general obligations of Panama and will rank equally, without any preference among themselves, with all other indebtedness issued in accordance with the fiscal agency agreement and with all other unsecured and unsubordinated Indebtedness of Panama.
- will be recorded on, and transferred through, the records maintained by DTC and its direct and indirect participants, including Euroclear and Clearstream, Luxembourg.
- will be issued in fully registered form, without coupons, registered in the names of investors or their nominees in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof.
- will be available in definitive form only under certain limited circumstances.

The global bonds will contain provisions regarding acceleration and voting on amendments, modifications, changes and waivers that differ from those applicable to Panama's outstanding public external indebtedness and described in the accompanying prospectus. These provisions are commonly referred to as "collective action clauses". Under these provisions, Panama may amend certain key terms of the global bonds, including the maturity date, interest rate and other payment terms, with the consent of the holders of not less than 75% of the aggregate principal amount of the outstanding global bonds. Additionally, if an event of default has occurred and is continuing, the global bonds may be declared to be due and payable immediately by holders of not less than 25% of the aggregate principal amount of the outstanding global bonds. Those provisions are described in the sections entitled "—Default; Acceleration of Maturity" and "—Amendments and Waivers" in this prospectus supplement.

Payment of Principal and Interest

Panama will make payments of principal and interest on the global bonds in U.S. dollars through the fiscal agent to DTC, which will receive the funds for distribution to the holders of the global bonds. Panama expects that holders of the global bonds will be paid in accordance with the procedures of DTC and its direct and indirect participants. Neither Panama nor the fiscal agent will have any responsibility or liability for any aspect of the records of, or payments made by, DTC or any failure on the part of DTC to make payments to holders of the global bonds from the funds it receives.

If any date for an interest or principal payment is a day on which banking institutions in New York City are authorized or obligated by law or executive order to be closed, Panama will make the payment on the next New York City banking day. No interest on the global bonds will accrue as a result of this delay in payment.

If any money that Panama pays to the fiscal agent or to any paying agent for the payment of principal of or interest on the global bonds is not claimed two years after the principal or interest was due and paid by Panama, then the fiscal agent or paying agent will repay the money to Panama. If this occurs, Panama will promptly confirm the receipt of this repayment in writing to the fiscal agent. After any such repayment, the fiscal agent or paying agent will not be liable with respect to the payments. However, Panama's obligations to pay the principal of and interest on the global bonds as they become due will not be affected by such repayment. The global bonds will become void unless presented for payment within five years after the maturity date thereof (or such shorter period as may be prescribed by applicable law).

Default; Acceleration of Maturity

Any of the following events will be an event of default with respect to the global bonds:

(a) a default by Panama in any payment of principal of the global bonds which continues for 15 calendar days;

(b) a default by Panama in any payment of interest on the global bonds which continues for 30 calendar days;

(c) a default by Panama in the performance of any other obligation under the global bonds which continues for 60 calendar days after the holder of any global bonds has provided to the fiscal agent written notice requiring this default be remedied;

(d) an acceleration of any aggregate principal amount of public indebtedness of Panama that exceeds U.S.\$25,000,000 (or its equivalent in any other currency) by reason of an event of default resulting from Panama's failure to make any payment of principal or interest under this public indebtedness when due;

(e) a failure of Panama to make any payment in respect of public indebtedness of Panama in an aggregate principal amount in excess of U.S.\$25,000,000 (or its equivalent in any other currency) when due (whether at stated maturity, by acceleration or otherwise), which continues for 30 calendar days after the holder of any global bonds has provided to the fiscal agent written notice requiring this default be remedied;

(f) a declaration by Panama of a moratorium with respect to the payment of principal of, or premium or interest on, public external indebtedness of Panama which does not expressly exclude the global bonds; or

(g) a denial or repudiation by Panama of its obligations under the global bonds.

If an event of default described above occurs and is continuing, the holders of at least 25% of the aggregate principal amount of the outstanding global bonds may, by notice to the fiscal agent, declare all the global bonds to be due and payable immediately. Holders of less than 25% of the aggregate principal amount of the outstanding global bonds may not, on their own, declare the global bonds to be due and payable immediately. Holders of global

bonds may exercise these rights only by providing a written demand to Panama and the fiscal agent at a time when the event of default is continuing.

Upon any declaration of acceleration, the principal, interest and all other amounts payable on the global bonds will be immediately due and payable on the date Panama receives written notice of the declaration, unless Panama has remedied the event or events of default prior to receiving the notice. The holders of 66 2/3% or more of the aggregate principal amount of the outstanding global bonds may rescind a declaration of acceleration if the event or events of default giving rise to the declaration have been cured or waived.

Fiscal Agent

The fiscal agency agreement contains provisions relating to the obligations and duties of the fiscal agent, to the indemnification of the fiscal agent and to the fiscal agent's relief from responsibility for actions that it takes. The fiscal agent is entitled to enter into business transactions with Panama or any of its respective affiliates without accounting for any profit resulting from such transactions.

Paying Agents; Transfer Agents; Registrar

Panama has initially appointed JPMorgan Chase Bank as paying agent, transfer agent and registrar. Panama may at any time appoint new paying agents, transfer agents and registrars. Panama, however, will at all times maintain:

- a principal paying agent in New York City, and
- a registrar in New York City.

In addition, so long as the global bonds are listed on the Luxembourg Stock Exchange and the rules of such exchange so require, Panama will maintain a paying agent and a transfer agent in Luxembourg. Panama will promptly provide notice (as described under “—Notices”) of the termination or appointment of, or of any change in the office of, any paying agent, transfer agent or registrar.

Definitive Global Bonds

Panama will issue global bonds in definitive form in exchange for the book-entry securities only if:

- DTC is unwilling or unable to continue as depository, is ineligible to act as depository or ceases to be a “clearing agency” registered under the U.S. Securities Exchange Act of 1934, as amended, and Panama does not appoint a qualified successor within ninety (90) days after DTC notifies Panama or Panama becomes aware that DTC is unwilling, unable or ineligible to act as depository or is no longer registered to be a “clearing agency”;
- Panama, at its option, elects to terminate the book-entry system through DTC; or
- an event of default with respect to the global bonds shall have occurred and be continuing.

Payments on any definitive global bonds will be made at the Global Trust Services Office of the fiscal agent in New York City and at the specified office of the paying agent in Luxembourg (against surrender of the relevant definitive global bond, in the case of payments of principal). You will not be charged a fee for the registration of transfers or exchanges of definitive global bonds. You may transfer any definitive registered global bond, according to the procedures in the fiscal agency agreement, by presenting and surrendering it at the office of any transfer agent.

Notices

Panama will publish notices to the holders of the global bonds in a leading newspaper having general circulation in London and New York. Panama expects that it will make such publication in the *Financial Times* and *The Wall Street Journal*. So long as the global bonds are listed on the Luxembourg Stock Exchange and the rules of

that Exchange so require, Panama will also publish notices to the holders of the global bonds in a leading newspaper having general circulation in Luxembourg. Panama expects that it will initially make such publication in the *Luxemburger Wort*. If publication in a leading newspaper in Luxembourg is not practicable, Panama will publish such notices in one other leading English language daily newspaper with general circulation in Europe. Panama will consider a notice to be given on the date of its first publication.

In the case of the book-entry securities, notices also will be sent to DTC or its nominee, as the holder thereof, and DTC will communicate such notices to DTC participants in accordance with its standard procedures.

Further Issues of the Global Bonds

From time to time, without the consent of holders of the global bonds, and subject to the required approvals under Panamanian law, Panama may create and issue additional debt securities with the same terms and conditions as those of the global bonds (or the same except for the amount of the first interest payment and the issue price), provided that such additional debt securities do not have, for purposes of U.S. federal income taxation (regardless of whether any holders of such debt securities are subject to the U.S. federal tax laws), a greater amount of original issue discount than the global bonds have as of the date of issuance of such additional debt securities. Panama may also consolidate the additional debt securities to form a single series with the outstanding global bonds.

Amendments and Waivers

Panama, the fiscal agent and the holders may generally modify or take actions with respect to the fiscal agency agreement or the terms of the global bonds with:

- the affirmative vote of the holders of not less than 66 2/3% in aggregate principal amount of the outstanding global bonds that are represented at a duly called and held meeting; or
- the written consent of the holders of 66 2/3% in aggregate principal amount of the outstanding global bonds.

However, the holders of not less than 75% in aggregate principal amount of the outstanding global bonds, voting at a meeting or by written consent, must consent to any amendment, modification, change or waiver with respect to the global bonds that would:

- change the due date for the payment of the principal of, or any installment of interest on, the global bonds;
- reduce the principal amount of the global bonds;
- reduce the portion of the principal amount that is payable in the event of an acceleration of the maturity of the global bonds;
- reduce the interest rate of the global bonds;
- change the currency in which any amount in respect of the global bonds is payable or the place or places in which such payment is to be made;
- permit early redemption of the global bonds;
- change Panama's obligation to pay any additional amounts under the global bonds;
- change the definition of "outstanding" with respect to the global bonds;
- change the governing law provision of the global bonds;
- change Panama's appointment of an agent for the service of process or Panama's agreement not to claim and to waive irrevocably immunity (sovereign or otherwise) in respect of any suit, action or proceeding arising out of or relating to the fiscal agency agreement or to the global bonds;

- change the status of the global bonds, as described under “Debt Securities—Status of the Debt Securities” in the prospectus;
- in connection with an offer to acquire all or any portion of the global bonds, amend any event of default under the global bonds; or
- reduce the proportion of the principal amount of the global bonds that is required:
 - to modify, amend or supplement the fiscal agency agreement or the terms and conditions of the global bonds; or
 - to make, take or give any request, demand, authorization, direction, notice, consent, waiver or other action.

We refer to the above subjects as “reserved matters.” A change to a reserved matter, including the payment terms of global bonds, can be made without your consent, as long as a supermajority of the holders (that is, the holders of at least 75% in aggregate principal amount of the outstanding global bonds) agrees to the change.

If both Panama and the fiscal agent agree, they may, without the vote or consent of any holder of the global bonds, modify, amend or supplement the fiscal agency agreement or the global bonds for the purpose of:

- adding to the covenants of Panama for the benefit of the holders of the global bonds;
- surrendering any right or power conferred upon Panama;
- securing the global bonds pursuant to the requirements of the global bonds or otherwise;
- curing any ambiguity or curing, correcting or supplementing any defective provision contained in the fiscal agency agreement or in the global bonds; or
- amending the fiscal agency agreement or the global bonds in any manner which Panama and the fiscal agent may determine and that does not adversely affect the interest of any holder of the global bonds in any material respect.

Any modification, amendment or supplement approved in the manner described in this section shall be binding on the holders of the global bonds.

For purposes of determining whether the required percentage of holders of global bonds is present at a meeting of holders for quorum purposes or has consented to or voted in favor of any request, demand, authorization, direction, notice, consent, waiver, amendment, modification or supplement under the global bonds or the fiscal agency agreement, global bonds owned, directly or indirectly, by or on behalf of Panama or any political subdivision or instrumentality of Panama will be disregarded and deemed not to be “outstanding.”

Please refer to the section entitled “Meetings and Amendments” in the prospectus for information on the procedures for convening and conducting meetings of the holders of global bonds.

Purchase of Global Bonds by Panama

Panama may at any time purchase any of the global bonds in any manner and for any consideration. All global bonds which are purchased by or on behalf of Panama may be held, resold or surrendered for cancellation.

Listing

Application has been made to list the global bonds on the Luxembourg Stock Exchange.

GLOBAL CLEARANCE AND SETTLEMENT

Panama has obtained the information in this section from sources it believes to be reliable, including from DTC, Euroclear and Clearstream, Luxembourg, and Panama takes responsibility for the accurate reproduction of this information. Panama takes no responsibility, however, for the accuracy of this information. DTC, Euroclear and Clearstream, Luxembourg are under no obligation to perform or continue to perform the procedures described below, and they may modify or discontinue them at any time. Neither Panama nor the registrar will be responsible for DTC's, Euroclear's or Clearstream, Luxembourg's performance of their obligations under their rules and procedures. Nor will Panama or the registrar be responsible for the performance by direct or indirect participants of their obligations under their rules and procedures.

Introduction

The Depository Trust Company

DTC is:

- a limited-purpose trust company organized within the meaning of the New York Banking Law;
- a “banking organization” under the New York Banking Law;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code; and
- a “clearing agency” registered under Section 17A of the Securities Exchange Act of 1934, as amended.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of transactions between its participants. It does this through electronic book-entry changes in accounts of its participants, eliminating the need for physical movement of securities certificates. DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the NASDAQ, American Stock Exchange and the National Association of Securities Dealers, Inc.

Euroclear and Clearstream, Luxembourg

Like DTC, Euroclear and Clearstream, Luxembourg hold securities for their participants and facilitate the clearance and settlement of securities transactions between their participants through electronic book-entry changes in their accounts. Euroclear and Clearstream, Luxembourg provide various services to their participants, including the safekeeping, administration, clearance and settlement, and lending and borrowing of internationally traded securities. Euroclear and Clearstream, Luxembourg participants are financial institutions such as underwriters, securities brokers and dealers, banks, trust companies and other organizations. The underwriters are participants in Euroclear or Clearstream, Luxembourg. Other banks, brokers, dealers and trust companies have indirect access to Euroclear or Clearstream, Luxembourg by clearing through or maintaining a custodial relationship with Euroclear or Clearstream, Luxembourg participants.

Distributions with respect to global bonds held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream, Luxembourg participants in accordance with its rules and procedures to the extent received by the depository for Clearstream, Luxembourg.

Ownership of Bonds through DTC, Euroclear and Clearstream, Luxembourg

Panama will issue the global bonds in the form of one or more fully registered book-entry securities, registered in the name of Cede & Co., a nominee of DTC. Financial institutions, acting as direct and indirect participants in DTC, will represent your beneficial interests in the book-entry securities. These financial institutions will record the ownership and transfer of your beneficial interests through book-entry accounts. You may hold your beneficial interest in the book-entry securities through Euroclear or Clearstream, Luxembourg, if you are a

participant in such systems, or indirectly through organizations that are participants in such systems. Euroclear and Clearstream, Luxembourg will hold their participants' beneficial interests in the book-entry securities in their customers' securities accounts with their depositories. These depositories of Euroclear and Clearstream, Luxembourg in turn will hold such interests in their customers' securities accounts with DTC.

Panama and the fiscal agent generally will treat the registered holder of the global bonds, initially Cede & Co., as the absolute owner of the global bonds for all purposes. Once Panama and the fiscal agent make payments to the registered holders, Panama and the fiscal agent will no longer be liable on the global bonds for the amounts so paid. Accordingly, if you own a beneficial interest in the book-entry securities, you must rely on the procedures of the institutions through which you hold your interests in the book-entry securities (including DTC, Euroclear, Clearstream, Luxembourg and their participants) to exercise any of the rights granted to the holder of the book-entry securities. Under existing industry practice, if you desire to take any action that Cede & Co., as the holder of such book-entry securities, is entitled to take, then Cede & Co. would authorize the DTC participant through which you own your beneficial interest to take such action, and that DTC participant would then either authorize you to take the action or act for you on your instructions.

DTC may grant proxies or authorize its participants (or persons holding beneficial interests in the global bonds through such participants) to exercise any rights of a holder or take any other actions that a holder is entitled to take under the fiscal agency agreement or the global bonds. Euroclear's or Clearstream, Luxembourg's ability to take actions as a holder under the global bonds or the fiscal agency agreement will be limited by the ability of their respective depositories to carry out such actions for them through DTC. Euroclear and Clearstream, Luxembourg will take such actions only in accordance with their respective rules and procedures.

The fiscal agent will not charge you any fees for the global bonds, other than reasonable fees for the replacement of lost, stolen, mutilated or destroyed global bonds. However, you may incur fees for the maintenance and operation of the book-entry accounts with the clearing systems in which your beneficial interests are held.

Transfers Within and Between DTC, Euroclear and Clearstream, Luxembourg

Trading Between DTC Purchasers and Sellers

DTC participants will transfer interests in the global bonds among themselves in the ordinary way according to DTC rules. DTC participants will pay for such transfers by wire transfer. The laws of some states require certain purchasers of securities to take physical delivery of the securities in definitive form. These laws may impair your ability to transfer beneficial interests in the global bonds to such purchasers. DTC can act only on behalf of its direct participants, who in turn act on behalf of indirect participants and certain banks. Thus, your ability to pledge beneficial interests in the global bonds to persons that do not participate in the DTC system, and to take other actions, may be limited because you will not possess a physical certificate that represents your interest.

Trading Between Euroclear and/or Clearstream, Luxembourg Participants

Participants in Euroclear and Clearstream, Luxembourg will transfer interests in the global bonds among themselves in the ordinary way according to the rules and operating procedures of Euroclear and Clearstream, Luxembourg.

Trading Between a DTC Seller and a Euroclear or Clearstream, Luxembourg Purchaser

When the global bonds are to be transferred from the account of a DTC participant to the account of a Euroclear or Clearstream, Luxembourg participant, the purchaser must first send instructions to Euroclear or Clearstream, Luxembourg through a participant at least one business day prior to the settlement date. Euroclear or Clearstream, Luxembourg will then instruct its depository to receive the global bonds and make payment for them. On the settlement date, the depository will make payment to the DTC participant's account and the global bonds will be credited to the depository's account. After settlement has been completed, DTC will credit the global bonds to Euroclear or Clearstream, Luxembourg. Euroclear or Clearstream, Luxembourg will credit the global bonds, in accordance with its usual procedures, to the participant's account, and the participant will then credit the purchaser's

account. These securities credits will appear the next day (European time) after the settlement date. The cash debit from the account of Euroclear or Clearstream, Luxembourg will be back-valued to the value date (which will be the preceding day if settlement occurs in New York). If settlement is not completed on the intended value date (*i.e.*, the trade fails), the cash debit will instead be valued at the actual settlement date.

Participants in Euroclear and Clearstream, Luxembourg will need to make funds available to Euroclear or Clearstream, Luxembourg in order to pay for the global bonds by wire transfer on the value date. The most direct way of doing this is to preposition funds (*i.e.*, have funds in place at Euroclear or Clearstream, Luxembourg before the value date) either from cash on hand or existing lines of credit. Under this approach, however, participants take on credit exposure to Euroclear or Clearstream, Luxembourg until the global bonds are credited to their accounts one day later.

As an alternative, if Euroclear or Clearstream, Luxembourg has extended a line of credit to a participant, the participant may decide not to pre-position funds, but to allow Euroclear or Clearstream, Luxembourg to draw on the line of credit to finance settlement for the global bonds. Under this procedure, Euroclear or Clearstream, Luxembourg would charge the participant overdraft charges for one day, assuming that the overdraft would be cleared when the global bonds were credited to the participant's account. However, interest on the global bonds would accrue from the value date. Therefore, in many cases the interest income on global bonds which the participant earns during that one-day period will substantially reduce or offset the amount of the overdraft charges. Of course, this result will depend on the cost of funds (*i.e.*, the interest rate that Euroclear or Clearstream, Luxembourg charges) to each participant.

Since the settlement will occur during New York business hours, a DTC participant selling an interest in the global bonds can use its usual procedures for transferring global bonds to the depositaries of Euroclear or Clearstream, Luxembourg for the benefit of Euroclear or Clearstream, Luxembourg participants. The DTC seller will receive the sale proceeds on the settlement date. Thus, to the DTC seller, a cross-market sale will settle no differently than a trade between two DTC participants.

Trading Between a Euroclear or Clearstream, Luxembourg Seller and DTC Purchaser

Due to time zone differences in their favor, Euroclear and Clearstream, Luxembourg participants can use their usual procedures to transfer global bonds through their depositaries to a DTC participant. The seller must first send instructions to Euroclear or Clearstream, Luxembourg through a participant at least one business day prior to the settlement date. Euroclear or Clearstream, Luxembourg will then instruct its depositary to credit the global bonds to the DTC participant's account and receive payment. The payment will be credited in the account of the Euroclear or Clearstream, Luxembourg participant on the following day, but the receipt of the cash proceeds will be back-valued to the value date (which will be the preceding day if settlement occurs in New York). If settlement is not completed on the intended value date (*i.e.*, the trade fails), the receipt of the cash proceeds will instead be valued at the actual settlement date.

Finally, a day trader that uses Euroclear or Clearstream, Luxembourg and that purchases global bonds from a DTC participant for credit to a Euroclear or Clearstream, Luxembourg account holder should note that these trades will automatically fail on the sale side unless affirmative action is taken. At least three techniques should be readily available to eliminate this potential problem:

- borrowing through Euroclear or Clearstream, Luxembourg for one day (until the purchase side of the day trade is reflected in its Euroclear or Clearstream, Luxembourg account) in accordance with the clearing system's customary procedures;
- borrowing the global bonds in the United States from a DTC participant no later than one day prior to settlement which would give the global bonds sufficient time to be reflected in the borrower's Euroclear or Clearstream, Luxembourg account in order to settle the sale side of the trade; or

- staggering the value dates for the buy and sell sides of the trade so that the value date for the purchase from the DTC participant is at least one day prior to the value date for the sale to the Euroclear or Clearstream, Luxembourg accountholder.

TAXATION

Panamanian Taxation

The following is a summary of certain Panamanian income and estate tax considerations that may be relevant to a prospective investor in the global bonds. The summary is based on laws, decrees, regulations, rulings and judicial and administrative interpretations in effect on the date of this prospectus supplement, all of which are subject to change. This summary is not intended to constitute a complete analysis of the tax consequences under Panamanian law of an investment in the global bonds. Prospective holders of the global bonds should consult their own tax advisors to determine the tax consequences arising from the purchase, ownership and disposition of the global bonds.

Taxation of Global Bonds

Interest payable on the global bonds will not be subject to income tax or withholding requirements in Panama. Gains realized by a holder of the global bonds on the sale or other disposition of the global bonds will be exempt from income or capital gain tax in Panama. Losses recognized on the sale or disposition of global bonds will be disallowed as a deduction for income tax purposes. Transfers of global bonds are not subject to stamp or estate taxes in Panama.

United States Taxation

The following is a summary of certain United States federal income and estate tax considerations that may be relevant to an initial purchaser of a global bond. This summary is based on United States federal tax laws in effect on the date of this prospectus supplement. All of these laws and authorities are subject to change at any time, perhaps with retroactive effect. No assurances can be given that any changes in these laws or authorities will not affect the accuracy of the discussions set forth in this summary.

This summary deals only with holders that hold the global bonds as capital assets as defined in the United States federal tax laws. This summary does not purport to deal with all aspects of United States federal income taxation that may be relevant to a particular holder in light of the holder's circumstances (for example, persons subject to the alternative minimum tax provisions of the Internal Revenue Code of 1986, as amended (the "Code")). Also, this summary does not address tax considerations applicable to special classes of holders, such as:

- investors who do not purchase the global bonds in the offering at the offering price;
- dealers in securities or currencies, banks, tax-exempt organizations and life insurance companies;
- traders in securities that elect to mark to market;
- persons that hold global bonds as part of a hedging transaction or as a position in a straddle or conversion transaction; and
- persons whose functional currency is not the U.S. dollar.

Prospective purchasers of global bonds should consult their own tax advisors concerning the consequences, in their particular circumstances, under the Code, and the laws of any other taxing jurisdiction, of the ownership of global bonds.

Definition of United States Holder

In general, a "United States Holder" is a holder of global bonds who or that is:

- an individual citizen or resident of the United States;
- a domestic corporation or partnership;

- an estate the income of which is subject to United States federal income tax without regard to its source; or
- a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust.

United States Holders

The following discussion applies to you if you are a United States Holder.

Payments of Interest. Interest on a global bond will be taxable to you as ordinary income at the time it is received or accrued, depending on your method of accounting for tax purposes.

Interest paid by Panama on the global bonds will constitute income from sources outside the United States and with certain exceptions, will be “passive” or “financial services” income, which is treated separately from other types of income for purposes of computing the foreign tax credit allowable to you under the United States federal income tax laws.

Purchase, Sale, and Retirement of the Global Bonds. Your adjusted tax basis in a global bond will generally equal its cost to you. You will generally recognize capital gain or loss on the sale or retirement of a global bond equal to the difference between the amount realized on the sale or retirement (not including any amounts attributable to accrued but unpaid interest) and your adjusted tax basis in the global bond. Such capital gain or loss will be long-term capital gain or loss if the global bond was held for more than one year. Under current law, net capital gains of individuals may be taxed at lower rates than items of ordinary income. Your ability to offset capital losses against ordinary income is limited. Any gain or loss you recognize on the sale or retirement of a global bond generally will be treated as income from sources within the United States or loss allocable to income from sources within the United States for United States federal income tax purposes.

Non-United States Holders

The following discussion applies to you if you are not a United States person for U.S. federal income tax purposes (“non-United States Holder”).

Interest on the Global Bonds. Subject to the discussion of backup withholding below, you generally will not be subject to United States federal income tax, including withholding tax, on payments of interest on the global bonds.

However, you may be subject to United States federal income tax on payments of interest on the global bonds if you:

- are an insurance company carrying on a U.S. insurance business to which the interest is attributable within the meaning of the United States federal tax laws; or
- have an office or other fixed place of business in the United States to which the interest is attributable and the interest is derived in the active conduct of a banking, financing or similar business within the United States.

Disposition of the Global Bonds. Subject to the discussion of backup withholding below, you will not be subject to United States federal income tax on any capital gain realized on the sale or retirement of the global bonds unless:

- that gain or income is effectively connected with your conduct of a trade or business within the United States; or

- you are an individual who is present in the United States for a total of 183 days or more during the taxable year in which the gain or income is realized, and either:
 - the gain is attributable to an office or fixed place of business maintained in the United States by you; or
 - you have a tax home in the United States.

Estate Tax. The global bonds will be treated as situated outside the United States for purposes of the United States federal estate tax. Thus, for purposes of that tax, the global bonds will not be included in your gross estate for such purposes.

Backup Withholding and Information Reporting. In general, information reporting requirements will apply to payments of principal of and interest on the global bonds to non-corporate United States Holders if those payments are made within the United States or are made by or through a custodian or nominee that is a United States Controlled Person, as defined below. Backup withholding tax will apply to those payments if such a United States Holder fails to provide an accurate taxpayer identification number or, in the case of interest payments, fails to certify that it is not subject to backup withholding or is notified by the Internal Revenue Service that it has failed to report all interest and dividends required to be shown on its United States federal income tax returns. Payments of principal and interest to beneficial owners who are non-United States Holders generally will not be subject to information reporting and backup withholding, but those holders may be required to establish their exemption from information reporting and backup withholding by certifying their status on United States Internal Revenue Service Forms W-8BEN.

The payment of proceeds of a sale or redemption of global bonds effected at the U.S. office of a broker will generally be subject to the information reporting and backup withholding rules described above. In addition, the information reporting rules will apply to payments of proceeds of a sale or redemption effected at a foreign office of a broker that is a United States Controlled Person, unless the broker has documentary evidence that the holder or beneficial owner is a non-United States Holder (and, has no actual knowledge or reason to know the contrary) or the holder or beneficial owner otherwise establishes an exemption.

A payment to a foreign partnership is treated, with some exceptions, for backup withholding purposes as a payment directly to the partners, so that the partners are required to provide any required certifications. If you hold a global bond through a partnership or other pass-through entity, you should consult your own tax advisors regarding the application of these regulations to your situation.

A “United States Controlled Person” is:

- a United States person (as defined in the United States Treasury regulations);
- a controlled foreign corporation for United States federal income tax purposes;
- a foreign person 50% or more of whose gross income is derived for tax purposes from a U.S. trade or business for a specified three-year period; or
- a foreign partnership in which United States persons hold more than 50% of the income or capital interests or which is engaged in a U.S. trade or business.

Any amounts withheld under the backup withholding rules from a payment to a holder of a global bond generally will be allowed as a refund or a credit against the holder’s United States federal income tax liability as long as the holder provides the required information to the Internal Revenue Service.

The global bonds are being offered for sale in jurisdictions in the United States, Europe and Asia where it is legal to make such offers. The underwriter has represented and has agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the global bonds, directly or indirectly, or distribute this prospectus supplement or the accompanying prospectus or any other material relating to the global bonds, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof, and will not impose any obligations on Panama except as set forth in the terms agreement and underwriting agreement.

Panama has agreed that it will not offer, sell, contract to sell or otherwise dispose of any debt securities of Panama, guaranteed by Panama or any agency or enterprise controlled by Panama that are substantially similar to the global bonds, are denominated in U.S. dollars, are to be placed outside Panama and which have tenors substantially similar to the global bonds, during the period beginning the date of this prospectus supplement and continuing to, and including, the completion of the distribution of the global bonds, without prior written consent of the underwriter.

Panama has agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act of 1933, as amended, and will contribute to payments that the underwriter may be required to make in respect of those liabilities.

The underwriter has agreed to reimburse Panama for certain of its expenses in connection with the offering of the global bonds.

DEBT SECURITIES

Panama may issue debt securities, with or without warrants, in distinct series at various times, and these debt securities will be issued pursuant to a fiscal agency agreement between Panama and the fiscal agent. The financial terms and other specific terms of a particular series of debt securities will be described in a prospectus supplement relating to such securities. If the terms or conditions described in the prospectus supplement that relates to your series of debt securities differ from the terms or conditions described in this prospectus, you should rely on the terms or conditions described in the prospectus supplement.

After the return of these moneys to Panama, the holder of this debt security may thereafter look only to Panama for any payment.

The register of holders of debt securities will be kept at the New York office of the fiscal agent.

Negative Pledge

Panama undertakes with respect to each series of debt securities that, as long as any debt securities of that series remain outstanding, it will not create or permit to subsist any Lien upon the whole or any part of its assets or revenues to secure any Public External Indebtedness of Panama, unless:

- ◆ the debt securities of such series are secured equally and ratably with such Public External Indebtedness; or
- ◆ the debt securities of such series have the benefit of such other security, guarantee, indemnity or other arrangement as shall be approved by the holders of the debt securities of such series as provided under the heading “Meetings and Amendments” below.

Notwithstanding the foregoing, Panama may create or permit to subsist:

- ◆ any Lien upon property to secure Public External Indebtedness of Panama incurred for the purpose of financing the acquisition of such property and any renewal or extension of any such Lien which is limited to the original property covered thereby and which secures only the renewal or extension of the original secured financing;
- ◆ any Lien existing on such property at the time of its acquisition to secure Public External Indebtedness of Panama and any renewal or extension of any such Lien which is limited to the original property covered thereby and which secures only the renewal or extension of the original secured financing;
- ◆ any Lien in existence on the date of the fiscal agency agreement, including any renewal or extension thereof which secures only the renewal or extension of the original secured financing;
- ◆ any Lien contemplated as of July 17, 1996 under the agreements (as they may be amended) implementing the Republic of Panama 1995 Financing Plan dated October 4, 1995 sent to the international financial community with the communication dated September 15,

1995 from the Minister of Planning and Economic Policy of Panama and explanatory communications relating thereto and implementing documentation therefor, including any Lien to secure obligations under the collateralized bonds issued thereunder (the “Collateralized Bonds”);

- ◆ any Lien securing Public External Indebtedness of Panama issued upon surrender for cancellation of the Collateralized Bonds or the principal amount of any indebtedness of Panama outstanding as of the date of the 1995 Financing Plan, in each case, to the extent such Lien is created to secure such Public External Indebtedness on a basis comparable to the Collateralized Bonds and the principal amount of Public External Indebtedness so secured is no greater than the principal amount of Collateralized Bonds or such other indebtedness so cancelled;
- ◆ any Lien securing Public External Indebtedness incurred for the purpose of financing all or part of the costs of the acquisition, construction or development of a project and any renewal or extension of such Lien, *provided* that:
 - ◇ the holders of such Public External Indebtedness expressly agree to limit their recourse to the assets and revenues of such project as the principal source of repayment of such Public External Indebtedness; and
 - ◇ the property over which such Lien is granted consists solely of such assets and revenues;
- ◆ any Lien on the properties or revenues of the Development Trust Fund created by Republic of Panama Law No. 20 of

May 15, 1995, *provided* that the equivalent in U.S. dollars of the amount secured by such Liens shall not at any time exceed the amount of all contributions to the Development Trust Fund from:

- ◇ the net proceeds from the privatization of publicly owned companies or the initial payment for concessions granted to the private sector;
 - ◇ the proceeds from sales conducted of any Interoceanic Region Assets by the Interoceanic Region Authority;
 - ◇ sums bequeathed or donated to the Development Trust Fund by any person other than Panama or any governmental agency or affiliate thereof; and
 - ◇ any earnings on properties or revenues received pursuant to the three bullet points immediately above, and any renewal or extension of any such Lien which is limited to the original properties or revenues covered thereby; and
- ◆ Liens in addition to those permitted under the bullet points above, and any renewal or extension thereof, *provided* that the aggregate amount of Public External Indebtedness secured by such additional Liens shall not exceed the equivalent of \$25,000,000.

Default; Acceleration of Maturity

Each of the following events will be an event of default with respect to each series of debt securities:

(a) default by Panama in any payment of principal of any debt securities of such series for 15 days;

(b) default by Panama in any payment of interest on any debt securities of such series for 30 days;

(c) failure of Panama to perform any other obligation under the debt securities of that series, which continues for 60 days after the holder of any debt securities of that series has provided to the fiscal agent written notice requiring that such default be remedied;

(d) acceleration of any aggregate principal amount of Public Indebtedness of Panama that exceeds \$25,000,000 (or its equivalent in any other currency) by reason of an event of default arising from Panama's failure to make any payment of principal or interest under this Public Indebtedness when due;

(e) failure of Panama to make any payment in respect of the Public Indebtedness of Panama in an aggregate principal amount in excess of \$25,000,000 (or its equivalent in any other currency) when due, which continues for 30 days after the holder of any debt securities of that series has provided to the fiscal agent written notice requiring that such default be remedied;

(f) declaration by Panama of a moratorium with respect to the payment of principal of, or premium or interest on, Public External Indebtedness of Panama which does not expressly exclude the debt securities of that series; or

(g) denial or repudiation by Panama of its obligations under the debt securities of that series.

If an event of default described in clause (a), (b), (f) or (g) above occurs with respect to any series of debt securities, then each holder of debt securities of that series may declare the principal of and any accrued interest on the debt securities it holds immediately due and payable.

If an event of default described in clause (c), (d) or (e) above occurs with respect to any series of debt securities, then the holders of not less than 25% in principal amount of all debt securities of that series then outstanding may declare the principal of and any accrued interest on all the debt securities of that series then outstanding immediately due and payable. Debt securities held directly or indirectly by or on behalf of Panama, any political subdivision or instrumentality thereof shall not be considered "outstanding" for this purpose.

Holders of debt securities may exercise these rights only by providing a written demand to Panama and the fiscal agent at its New York office at a time when the event of default is continuing.

Redemption and Repurchase

Unless otherwise set forth in the applicable prospectus supplement, the debt securities will not be redeemable prior to maturity at the option of Panama or the registered holders of these debt securities.

Panama may at any time purchase debt securities in any manner and for any price. These debt securities purchased by Panama may, at its discretion, be held, resold or cancelled.

Meetings and Amendments

General. A meeting of holders of debt securities of any series may be called at any time:

- ◆ to make, give or take any request, demand, authorization, direction, notice, consent, waiver or other action provided for in the fiscal agency agreement or the debt securities of that series; or
- ◆ to modify, amend or supplement the terms of the debt securities of that series or the fiscal agency agreement.

Panama may at any time call a meeting of holders of debt securities of a series for any purpose. This meeting would be held at the time and place determined by Panama. If an event of default occurs and Panama or the holders of at least 10% of the aggregate principal amount of the outstanding debt securities of a series request (in writing) the fiscal agent to call a meeting, the fiscal agent will call such a meeting.

Notice. The notice of a meeting will set forth the time and place of the meeting and in general terms the action proposed to be taken at the meeting. This notice shall be given as provided in the terms of the debt securities. In addition, this notice shall be given between 30 to 60 days before the meeting date; however, in the case of any meeting to be reconvened after adjournment for lack of a quorum, this notice shall be given between 10 and 60 days before the meeting date.

Voting; Quorum. A person who holds outstanding debt securities of a series or is duly appointed to act as proxy for a holder of these debt securities will be entitled to vote at a meeting of holders of the debt securities of that series. The presence at the meeting of persons entitled to vote a majority of the principal amount of the outstanding debt securities of a series shall constitute a quorum with respect to that series of debt securities.

If a quorum is not present within 30 minutes of the time appointed for the meeting, the meeting may be adjourned for a period of at least 10 days as determined by the chairman of the meeting prior to the adjournment of the meeting. If the meeting is convened at the request of the holders, however, then the meeting shall be dissolved.

In the absence of a quorum at an adjourned meeting, this adjourned meeting may be further adjourned for a period of at least 10 days as determined by the chairman of the meeting. Notice of the reconvening of an adjourned meeting shall be given only once. This notice shall state expressly the percentage of the principal amount of the outstanding debt securities of that series which shall constitute a quorum. Subject to the foregoing, at the reconvening of a meeting adjourned for a lack of a quorum, the presence of persons entitled to vote 25% in principal amount of the outstanding debt securities of a series shall constitute a quorum with respect to that series of debt securities for the taking of any action set forth in the notice of the original meeting.

In addition, any meeting at which a quorum is present may be adjourned by the vote of a majority of the principal amount of the outstanding debt securities of the series represented at the meeting, and the meeting may be held as so adjourned without further notice.

If a quorum is present at the meeting, any resolution and all matters (other than those matters identified below that require the consent of all holders of the debt securities of a series) shall be effectively passed or decided by the vote of the persons entitled to vote 66-2/3% in aggregate principal amount of the outstanding debt

securities of such series represented and voting at the meeting.

Regulations. The fiscal agent may make reasonable and customary regulations as it deems advisable for any meeting with respect to:

- ◆ the proof of the holding of debt securities of a series;
- ◆ the appointment of proxies in respect of holders of registered debt securities of a series;
- ◆ the record date for determining the registered owners of registered debt securities of a series;
- ◆ the adjournment and chairmanship of such meeting;
- ◆ the appointment and duties of inspectors of votes, certificates and other evidence of the right to vote; and
- ◆ other matters concerning the conduct of the meeting that the fiscal agent deems appropriate.

Chairman. The fiscal agent will appoint a temporary chairman of the meeting by an instrument in writing. If Panama or the holders of the debt securities of a series called the meeting, however, then Panama or the holders calling the meeting, as the case may be, will appoint a temporary chairman by an instrument in writing.

A permanent chairman and a permanent secretary of the meeting shall be elected by the vote of the persons entitled to vote a majority of the principal amount of the outstanding debt securities of the series represented and voting at the meeting. The chairman of the meeting shall have no right

to vote, except as a holder of debt securities of that series or proxy.

Record. A record, and at least one duplicate, of the proceedings of each meeting of holders will be prepared. One copy of the record of each meeting will be delivered to Panama and another to the fiscal agent to be preserved by the fiscal agent.

Amendments. Unless the unanimous consent of holders of debt securities of an affected series is required as specified below, with

- ◆ the affirmative vote, in person or by proxy, of the holders of at least 66 2/3% of the aggregate principal amount of the outstanding debt securities of a series represented and voting at a duly called and held meeting; or
- ◆ the written consent of the holders of at least 66-2/3% in aggregate principal amount of the outstanding debt securities of a series:

(i) Panama and the fiscal agent may modify, amend or supplement the terms of the debt securities of a series or, insofar as it affects the debt securities of that series, the fiscal agency agreement, in any way and (ii) holders of debt securities of a series may make, take or give any request, demand, authorization, direction, notice, consent, waiver or action provided by the fiscal agency agreement or the debt securities of such series to be made, given or taken by holders of debt securities of such series.

The following actions may only be taken with the written consent or affirmative vote of the holder of each debt security of an affected series:

- ◆ changing the due date for the payment of the principal of, any installment of interest on, or premium (if any) on the debt securities of such series;
- ◆ reducing the principal amount of the debt securities of such series;
- ◆ reducing the portion of the principal amount which is payable in the event of an acceleration of the maturity of the debt securities of such series;
- ◆ reducing the interest rate on the debt securities of such series;
- ◆ reducing the premium, if any, payable upon the redemption of any debt securities of such series;
- ◆ changing the currency in which any amount in respect of the debt securities of that series is payable;
- ◆ changing the required places at which any amount in respect of the debt securities of that series is payable;
- ◆ shortening the period during which Panama is not permitted to redeem the debt securities of that series;
- ◆ permitting Panama to redeem the debt securities of the affected series, if Panama is not otherwise permitted to redeem the debt securities of that series;
- ◆ reducing the proportion of the principal amount of the debt securities of that series that is required:
 - ◇ to modify, amend or supplement the fiscal agency agreement or the terms and conditions of the debt securities of that series, or

◇ to make, take or give any request, demand, authorization, direction, notice, consent, waiver or other action; or

- ◆ changing the obligation of Panama to pay additional amounts.

Panama and the fiscal agent may, without the vote or consent of any holder of debt securities of a series, modify, amend or supplement the fiscal agency agreement or the debt securities of any series for the purpose of:

- ◆ adding to the covenants of Panama;
- ◆ surrendering any right or power conferred upon Panama;
- ◆ securing the debt securities of that series pursuant to the requirements of the debt securities or otherwise;
- ◆ correcting any defective provision contained in the fiscal agency agreement or in the debt securities of that series; or
- ◆ amending the fiscal agency agreement or the debt securities of that series in any manner that Panama and the fiscal agent may determine and that does not adversely affect the interest of any holder of debt securities of that series.

Any modification, amendment or supplement approved in the manner described in this section shall be binding on the holders of debt securities of such series.

Judgment Currency

If a court renders a judgment in respect of amounts due to a holder of a debt security permitting Panama to pay such amounts in a currency (“judgment currency”) other than the currency in which

the debt security was required to be paid by its terms (“debt security currency”), Panama and such holder are deemed to have agreed, to the fullest extent permitted under applicable law, that:

- ◆ the rate of exchange for determining the amount of such judgment shall be based on the rate at which such holder, using normal banking procedures, could purchase the debt security currency with the judgment currency in the relevant principal financial center for the debt security currency, two business days preceding the date of such judgment; and
- ◆ if on the business day following the holder’s receipt of such payment in the judgment currency, such holder is not able, in accordance with normal banking procedures, to purchase with the judgment amount at least the amount of debt security currency that was due to him under the original terms of the debt security, Panama will indemnify such holder for the shortfall; if such holder is able to purchase with such judgment currency an amount of debt security currency greater than that to which he would have been entitled, and if all of Panama’s obligations to such holder under the debt securities are fully paid, such holder agrees to remit any excess to Panama.

Tax Withholding; Payment of Additional Amounts

All payments of principal and interest in respect of the debt securities of any series by Panama will be made without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by Panama or any other jurisdiction from which

or through which payment is made to holders of debt securities in respect of the debt securities or any political subdivision or authority thereof or therein having power to tax (together “Taxes”), unless such withholding or deduction is required by law. In such event, Panama shall pay such additional amounts as will result in receipt by the holders of debt securities of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any debt security of any series:

(a) to a holder where such holder is liable to pay such Taxes in respect of any debt security of such series by reason of such holder’s having some connection with Panama other than the mere holding of such debt security of such series or the receipt of principal and interest in respect thereof.

(b) to a holder who is liable for such Taxes by reason of such holder’s failure to comply with any reasonable certification, identification or other reporting requirement concerning the nationality, residence, identity or connection with Panama, or any political subdivision or taxing authority thereof or therein, of such holder or the holder of any interest in such debt security of such series or rights in respect thereof, if compliance is required by Panama, or any political subdivision or taxing authority thereof or therein, as a precondition to exemption from such deduction or withholding; *provided, however*, that the limitations on Panama’s obligations to pay additional amounts shall not apply if such certification, identification, or other reporting requirements would be materially more onerous, in form, in procedure, or in substance of information disclosed by the relevant holders or beneficial owners than comparable information or other reporting requirements imposed by United States tax

law, regulation or administrative practice; or to a holder who is liable for such Taxes by reason of the failure of such holder to present such holder’s debt security for payment (where such presentation is required) within 30 calendar days after the date on which such payment thereof became due and payable or is duly provided for and notice thereof is given to the holder, whichever occurs later, except to the extent that such holder would have been entitled to additional amounts in respect of such Taxes on presenting such debt security for payment on any date within such 30 calendar days.

Any reference herein to “principal” and/or “interest” shall be deemed to include any additional amounts that may be payable under the debt securities.

Global Securities

The prospectus supplement that relates to your debt securities indicates whether any of the debt securities you purchase will be represented by a global security. The aggregate principal amount of any global security equals the sum of the principal amount of all the debt securities it represents. The global security will be registered in the name of the depository identified in the prospectus supplement or its nominee, and will be deposited with the depository, its nominee or a custodian.

Limitations on Your Ability to Obtain Debt Securities Registered in Your Name. The global security will not be registered in the name of any person other than the depository or its nominee. Similarly, the global security will not be exchanged for debt securities that are registered in the name of any person other than the depository or its nominee. An exception to these restrictions would be made only if:

- ◆ the depositary notifies Panama that it is unwilling, unable or no longer qualified to continue to act as depositary and Panama does not appoint a successor depositary within 90 days;
- ◆ at any time Panama decides it no longer wishes to have all or part of the debt securities represented by a global security; or
- ◆ an event of default has occurred and is continuing with respect to the series of debt securities represented by the global security.

In those circumstances, the depositary will determine in whose names to register any certificated (physical) debt securities issued in exchange for the global security. These certificated (physical) debt securities will be issued:

- ◆ only in fully registered form;
- ◆ without interest coupons; and
- ◆ in denominations of \$1,000 and greater multiples.

The depositary or its nominee will be considered the sole owner and holder of the global security for all purposes. As a result:

- ◆ you cannot have debt securities registered in your name for so long as they are represented by the global security;
- ◆ you cannot receive certificated (physical) debt securities in your name in exchange for your beneficial interest in the global security;
- ◆ you will not be considered to be the owner or holder of the global security or

any debt securities represented by the global security for any purpose;

- ◆ you cannot assert any right of a holder of the debt securities unless you are authorized by the depositary and the participant through which you hold your beneficial interest; and
- ◆ all payments on the global security will be made to the depositary or its nominee.

In some jurisdictions, certain types of purchasers (such as some insurance companies) are not permitted to own securities represented by a global security. These laws may limit your ability to sell or transfer your beneficial interest in the global security to these types of purchasers.

Beneficial Interests in and Payments on Global Security. Institutions that have accounts with the depositary or a nominee of the depositary, such as securities brokers and dealers, are called participants. Only participants, and persons who hold beneficial interests through participants, can own a beneficial interest in the global security. The depositary keeps records of the ownership and transfer of beneficial interests in the global security by its participants. In turn, participants keep records of the ownership and transfer of beneficial interests in the global security by other persons (such as their customers). No other records of the ownership and transfer of beneficial interests in the global security will be kept.

When the depositary receives payment of principal or interest on the global security, the depositary is expected to credit its participants' accounts in amounts that correspond to their respective beneficial interests in the global security. In turn, after the participants' accounts are credited, the

participants are expected to credit the accounts of the owners of beneficial interests in the global security in amounts that correspond to the owners' respective beneficial interests in the global security.

The depositary and its participants establish policies and procedures that govern payments, transfers, exchanges and other important matters that affect owners of beneficial interests in the global security. The depositary and its participants may change these policies and procedures from time to time. Panama has no responsibility or liability for the records of the depositary or its participants relating to the ownership of beneficial interests in the global security. Also, Panama is not responsible for maintaining, supervising or reviewing those records or payments. Panama has no responsibility or liability for any aspect of the relationship between the depositary and its participants or for any aspects of the relationship between participants and owners of beneficial interests in the global security.

WARRANTS

Panama may issue warrants to purchase debt securities, either separately or together with debt securities. If Panama issues any warrants, each issue of warrants will be issued under a warrant agreement between Panama and a bank or trust company, as warrant agent. The terms of any warrant agreement related to a specific issue of warrants and the specific terms of the issue of warrants will be described in the prospectus supplement that relates to those warrants. The prospectus supplement will describe the following terms:

- ◆ the terms listed under the heading "Debt Securities" as they relate to the particular debt securities you have the

right to purchase if you exercise your warrants;

- ◆ the amount of debt securities each warrant entitles you to purchase if you exercise your warrants and the purchase price of those debt securities;
- ◆ the procedures you must follow and the conditions you must satisfy to exercise your warrants;
- ◆ the dates on which your right to exercise your warrants begins and expires;
- ◆ the conditions, if any, under which Panama may cancel or terminate your warrants;
- ◆ whether and when your warrants and any debt securities issued together with your warrants may be sold or transferred separately;
- ◆ whether the certificates that represent the warrants will be issued in registered or bearer form, whether they will be exchangeable as between such forms and, if issued in registered form, whether the warrants can be transferred and registered;
- ◆ any special United States federal income tax considerations applicable to the issuance of your warrants; and
- ◆ any other terms of such warrants.

GOVERNING LAW

The fiscal agency agreement, any warrant agreement, the debt securities and any warrants will be governed by and interpreted in accordance with the laws of the State of New York, without regard to any conflicts-of-laws principles that would

require the application of the laws of a jurisdiction other than the State of New York; provided, however, that the laws of Panama will govern all matters concerning authorization and execution of all agreements and securities by Panama.

JURISDICTION AND ENFORCEMENT

Panama is a foreign sovereign state. Consequently, your ability to sue Panama may be limited. Panama will irrevocably submit to the non-exclusive jurisdiction of any New York State or Federal court in New York City in any related proceeding (*i.e.*, any suit, action or proceeding arising out of or relating to the debt securities or the warrants) and Panama will irrevocably agree that all claims in respect of any related proceeding may be heard and determined in such New York State or Federal court.

Panama will appoint and will agree to maintain the person acting as or discharging the function of Consul General of the Republic of Panama in New York City as its process agent to receive, on behalf of Panama and its property, service of copies of the summons and complaint and any other process which may be served in any related proceedings. The address of the office of the process agent is:

1212 Avenue of the Americas
10th Floor
New York, New York 10036

Panama will irrevocably waive, to the fullest extent it may effectively do so, the defense of an inconvenient forum to the maintenance of any related proceeding and any objection to any related proceeding on the grounds of venue, residence or domicile.

To the extent that Panama has or may acquire any immunity from jurisdiction of the courts or from any legal process in the

courts, Panama will irrevocably agree not to claim and will irrevocably waive any immunity in respect of any related proceeding. Panama will agree that these waivers shall have the fullest scope permitted under the Foreign Sovereign Immunities Act of 1976 of the United States.

Notwithstanding the foregoing, the execution on or attachment of revenues, assets and property of Panama located in Panama through the Panamanian courts, both prior to and post-judgment, shall be subject to the provisions of Articles 1033, 1034, 1674 and 1963 of the Judicial Code of the Republic of Panama.

Moreover, Panama has not consented to service or waived sovereign immunity with respect to actions brought against it under United States federal securities laws or any State securities laws. In the absence of a waiver of immunity by Panama with respect to these actions, it would not be possible to obtain a judgment in such an action brought against Panama in a court in the United States unless the court were to determine that Panama is not entitled under the Foreign Sovereign Immunities Act to sovereign immunity with respect to such action. Further, even if a United States judgment could be obtained in such an action, it may not be possible to enforce in Panama a judgment based on such a United States judgment. Execution upon property of Panama located in the United States to enforce a United States judgment may not be possible except under the limited circumstances specified in the Foreign Sovereign Immunities Act.

PLAN OF DISTRIBUTION

Panama may sell any combination of the debt securities and/or warrants in any of three ways:

- ◆ through underwriters or dealers;
- ◆ directly to one or more purchasers; or
- ◆ through agents.

Each prospectus supplement will set forth:

- ◆ the name or names of any underwriters or agents;
- ◆ the purchase price of the securities of that series;
- ◆ the net proceeds to Panama from the sale of the securities;
- ◆ any underwriting discounts, agent commissions or other items constituting underwriters' or agents' compensation;
- ◆ any initial public offering price; and
- ◆ any discounts or concessions allowed or reallocated or paid to dealers.

The securities may be sold from time to time in distinct series by different means at different prices that are negotiated and fixed or that vary based on market prices.

Underwriters used in the sale of securities will distribute these securities on a firm commitment basis. In this case, the underwriters will acquire these securities for their own account and may resell them from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices to be determined at the time of sale. Panama may offer the securities to the public either

through underwriting syndicates represented by managing underwriters or directly by underwriters. Unless otherwise set forth in the applicable prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions precedent and the underwriters will be obligated to purchase all such securities if any are purchased. The underwriters may change any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

Panama may also sell securities of any series directly to the public or through agents designated by Panama from time to time. Unless otherwise specified in the applicable prospectus supplement, an agent used in the sale of securities will sell the securities on a reasonable best efforts basis for the period of its appointment.

Panama may authorize agents, underwriters or dealers to solicit offers by certain specified entities to purchase the securities from Panama under "delayed delivery" contracts. Purchasers of securities under delayed delivery contracts will pay the public offering price plus accrued interest, if any, and will take delivery of these securities on a date or dates stated in the applicable prospectus supplement. Delayed delivery contracts will be subject only to those conditions set forth in the applicable prospectus supplement. The applicable prospectus supplement will set forth the commission payable for solicitation of these delayed delivery contracts.

Panama may offer the securities of any series to present holders of other securities of Panama as consideration for the purchase or exchange by Panama of other securities. This offer may be in connection with a publicly announced tender, exchange or other offer for these securities or in privately

negotiated transactions. This offering may be in addition to or in lieu of sales of securities directly or through underwriters or agents as set forth in the applicable prospectus supplement.

Panama may agree to indemnify agents and underwriters against certain liabilities, including liabilities under the United States Securities Act of 1933, or to contribute to payments which the agents or underwriters may be required to make in respect of any of these liabilities. Agents and underwriters may engage in transactions with or perform services for Panama in the ordinary course of business.

VALIDITY OF THE SECURITIES

The validity of the debt securities and warrants will be passed upon for Panama by Licenciada Alma Montenegro de Fletcher, the *Procuradora de la Administración* of Panama, or by a duly authorized attorney of the *Procuraduría de la Administración* and by Arnold & Porter, United States counsel to Panama, and for the underwriters, if any, by United States counsel and Panamanian counsel to the underwriters named in the applicable prospectus supplement.

As to all matters of Panamanian law, Arnold & Porter may rely on the opinion of the *Procuradora de la Administración*. As to all matters of United States law, the *Procuradora de la Administración* may rely on the opinion of Arnold & Porter. Certain statements with respect to matters of Panamanian law in this prospectus have been passed upon by the *Procuradora de la Administración*, and are made upon her authority.
